LOSS OF INCOME

SCS PTY LTD ACN 072 008 747

The business was in it's early stage of growth. I was selling my "cook in the bag" rice meals to various camping stores throughout Australia. I was aiming at the export market and had interests in Asia and Japan. I had done market surveys and test markets and was about to introduce the product to the major supermarkets. I had invested quite a lot of money in marketing the product. Due to my illness I was no longer able to persue the business due to my physical impairment and also my financial situation.
